Out of Service Equipments					
Plant	Equipment	Date Out of Srv	Status	ETC Date	Initial Fault
GAS PLANT	EM-534C	2025-02-16T18:30:00.000Z	Shut Down	2025-03-03T18:30:00.000Z	Abnormal Sound (Defected pully) on EMC-524C Lube Oil Coller of Propane Compressor
GAS PLANT	U-0553	2025-02-08T18:30:00.000Z	Shut Down	2025-02-19T18:30:00.000Z	Common Flare System for T&I Activity
COGEN	MACC-01 EM-0808H	2025-02-02T18:30:00.000Z	Shut Down	2025-03-19T18:30:00.000Z	Gearbox Overheating
UTILITY/WIP	D-981	2024-11-30T18:30:00.000Z	Shut Down	2025-04-09T18:30:00.000Z	Raw Water Tank for T&I Activity

Highlights

- High Priority Items :

Complete system upgrade for improved performance.Conduct training sessions for new software deployment.Finalize Q3 performance review and submit reports.Address client feedback on recent project deliverables.
- Safety.

Conduct monthly fire drills and safety inspections.Ensure all employees complete safety compliance training.Update safety protocols in line with new regulations.Install new signage for emergency exits.
- Energy.

Implement energy-saving initiatives across all departments.Optimize HVAC systems to reduce power consumption.Track and analyze energy usage for cost-saving opportunities.Upgrade lighting to energy-efficient LED fixtures.
- Environment

Launch a company-wide recycling program.Reduce paper usage by 30% by transitioning to digital documents.Organize a community clean-up event.
